RE: Revocation of Tentative
Approval
Milford Project
ACT/001/006
Beaver County, Utah

Dear Mr. Wall:

In the Division's letter of October 14, 1983, it was stated that it is the Division's policy to not allow tentative approvals to continue indefinitely. A review of Kolt Mining Company's latest submittal of information has revealed that there remains a deficiency in vegetative information and that no engineering design changes concerning hydrology and tailings facilities have been submitted. Also, there appears to be a problem with posting the required reclamation surety. Therefore, the Division is terminating all further review of Kolt's permit application and is hereby revoking the tentative approval issued to Kolt Mining Company in our letter of April 1, 1983.

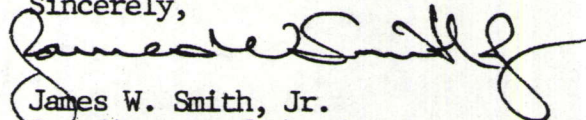

Should Kolt Mining Company wish to pursue permitting of its Milford Project, the Division should be notified in writing. Such notification must include a new Form MR-1, including the above referenced engineering design changes and required vegetation information. It is also recommended that a meeting between the Division technical staff and Kolt Mining be held prior to providing a submittal to resolve any problems and deficiencies found in the applicant's mining and reclamation plan thus far. Upon receipt of the new application, the Division will reestablish the Milford Project on its review schedule. Any future approval will be contingent upon the resolution of all Division concerns and posting of the required reclamation surety by Kolt Mining Company.

Mr. Lloyd Wall, President
ACT/001/006
January 12, 1984

Please be advised that any mining activity conducted without Division approval is a violation of the Utah Mined Land Reclamation Act (Title 40-8).

If you should have any questions, please contact me or Mary Boucek of my staff.

Sincerely,

James W. Smith, Jr.
Coordinator of Mined
Land Development
